

ExtraLow

TrueType Font for Windows

Install ExtraLow before reading this file.

© 1998–2000 Gyula Zsigri. All rights reserved.

The ExtraLow font family has two members:
ExtraLow (extralow.ttf) and ExtraLow Italic (extraloi.ttf)

You can freely use and distribute them provided that
you also pass this document.

This is how you can type ExtraLow characters:

é̲	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	ḡ	
e	g	G	h	H	k	q	Q	w	W	j	J	n	N	K	x	X	z	Z

There is no room for such low diacritics in normally spaced fonts but there is in ExtraLow because it pushes the next line lower.
